Mr. Robert M. Macy
Chief, International Division
Bureau of the Budget
Washington 25, D. C.

Dear Mr. Macy:

In response to Bulletin No. 61-9, issued by the Bureau of the Budget on February 2, 1961, the Central Intelligence Agency has taken the following action:

1. A review was made of the Agency's material procurement program through the end of Fiscal Year 1961. As a result of this review, it has been determined that approximately \$931,000 can be added to regularly scheduled procurement over the next sixty days by an accelerated program.

2. Current and planned construction programs have been reviewed with the conclusion that no significant changes are possible. In the case of the new headquarters building, every effort is being made to offset the delay caused by the unusual weather conditions of the past few months and to maintain the present schedule.

3. Agency research and development programs have been considered, but because of the necessary technical review involved in these types of projects it is believed that acceleration would be impractical.

Attached are forms outlining the few changes which we feel can be accomplished.

Very truly yours,

25X1
